Maryfield, Inc. 401(k) Plan

ENROLL NOW TO TAKE FULL ADVANTAGE OF YOUR RETIREMENT SAVINGS PLAN BENEFITS

YOUR GUIDE TO GETTING STARTED

# Save for retirement through Maryfield, Inc. 401(k) Plan easily, regularly, and automatically.

With all the responsibilities and financial priorities you might be juggling – mortgage payments, parenthood, saving or paying for college, caring for parents, and more – it can be easy to overlook the need to save for retirement. But it's important to consider setting aside money for retirement as early and regularly as you can, because the quality of your retirement years could very well depend on how much you have been able to save.

As you consider enrolling in Maryfield, Inc. 401(k) Plan and selecting investment options for your account, please review this Enrollment Guide. It contains valuable information that may help you better understand the basics of investing, as well as help you make the most of your company's retirement savings plan.

#### LOOK INSIDE FOR:

- Participating in your plan
- Investment Options
- Next Steps
- Enrollment form
- Beneficiary form
- Rollover contribution form

Please review this information carefully.

# PARTICIPATING IN YOUR plan

There are many benefits to participating in the Maryfield, Inc. 401(k) Plan. One of the primary benefits is that you will receive help reaching your financial goals for retirement. By reviewing the important information in this guide and visiting Fidelity NetBenefits<sup>®</sup> at <a href="https://www.401k.com">www.401k.com</a>, you can take advantage of what your company and Fidelity have to offer.

#### When am I eligible for the Plan?

You are eligible to participate in the Plan if:

- you complete one year of service\*
- you are at least 21 years old

\*You will receive credit each year you complete one year of service in which you worked at least 1000 hours during a twelve month period, beginning with your date of hire and ending with your date of hire anniversary.

#### How do I enroll?

To enroll, fill out the enrollment form and the beneficiary form in the back of this guide and return it to your company's benefits department.

#### When is my enrollment effective?

Once you satisfy these requirements you will become eligible to participate in the Plan on October 1, January 1, April 1, or July 1.

#### How much can I contribute?

Through automatic payroll deduction, you may contribute between 1% and 50% of your eligible pay on a pretax basis, up to the annual IRS dollar limit (2018 = \$18,500). You may change your deferral percentage as applicable on the next Plan entry date (October 1, January 1, April 1, or July 1).

If you expect to receive bonus compensation and have not exceeded IRS pretax dollar contribution limits or Plan pretax contribution percentage limits, you may be able to make an additional deferral contribution to the Plan. You need to contact your Plan Sponsor about the procedure for making an additional deferral contribution of up to 100% of a bonus paid to you.

If you are age 50 or over by the end of the taxable year and have reached the annual IRS limit or Plan's maximum contribution limit for the year, you

may make additional salary deferral contributions to the Plan up to the IRS Catch Up Provision Limit (2018= \$6,000).

# Can I move qualified money from another retirement account into this one?

You may be permitted to roll over eligible contributions into this Plan from a previous employer's retirement plan. For other eligible account types, please see your Summary Plan Description. Be sure to consider all your available options and the applicable fees and features of each before moving your retirement assets. To complete a rollover in the Plan follow these easy steps:

- Contact your prior plan provider to request a rollover distribution
- Rollover check issued should be made payable to Fidelity Investments Institutional Operations Company, Inc. (FIIOC) FBO: your name and sent to you
- Initiate the rollover by logging into <u>www.401k.com</u> (recommended) or by completing the rollover contribution form found at the end of the Enrollment Guide
- Return both the applicable rollover documentation and the check from your prior Plan as per the rollover instructions

#### Does the Company contribute to my account?

Your employer will make Safe Harbor matching contributions to your account based on your pretax contributions. The amount will equal:

- 100% of the first 3% of your eligible compensation contributed to the Plan
- 50% of the next 2% of your eligible compensation contributed to the Plan

To be eligible for matching contributions you are required to:

make employee pretax deferral contributions

In some Plan Years, your Employer may choose

to make an additional discretionary matching contribution to your account. The amount would be determined at Plan Year end by a Board of Directors' Resolution.

To be eligible for additional discretionary matching contributions you are required to:

make employee pretax deferral contributions

For purposes of determining your matching contributions under the Plan, your pretax contributions will include Age 50 and over Catch-Up Contributions described above.

The Employer may make a discretionary profit sharing contribution to only those participants who are eligible under the terms of the plan. Please refer to your employer or Summary Plan Description for more detailed information.

#### When am I vested?

The term "vesting" refers to the portion of your account balance that you are entitled to under the plan's rules.

You are always 100% vested in your:

- employee pretax account
- Employer matching contribution account
- Employer profit sharing contribution account
- rollover account
- Safe Harbor matching contributions
- and any earnings thereon.

#### Can I make withdrawals from my account?

Withdrawals from the Plan are generally permitted in the event of termination of employment, retirement, disability, or death. You may also be eligible for a withdrawal in the case of a severe financial hardship as defined by your Plan.

#### How do I access my account?

Through Fidelity NetBenefits<sup>®</sup> at <a href="www.401k.com">www.401k.com</a> you have access to your account information, retirement planning tools, and e-Learning workshops<sup>®</sup> that provide you access to self-paced training on savings and investing principles.

You may call the Retirement Benefits Line at 1-800-835-5097 between 8:30 a.m. and 8:00 p.m. on any business day when the New York Stock Exchange is open. Fidelity Representatives can assist

you with transactions and answer many of your questions regarding retirement savings.

#### How do I learn more?

Through Fidelity NetBenefits<sup>®</sup> at <a href="www.401k.com">www.401k.com</a> you have access to your account information and retirement planning tools including:

Live and self-paced learning workshops.
 The workshops cover a variety of topics including determining your retirement savings needs, evaluating your investment options and keeping your investment strategy on track to help you achieve your retirement goals.

In addition, you can take advantage of local Investor Centers by scheduling time with a Fidelity Representative to discuss your total investment needs beyond your retirement savings plan. Or, if you prefer, call 1-800-Fidelity for a complimentary portfolio review.

#### How do I change my investment options?

You can make changes to your investment selections online at <a href="https://www.401k.com">www.401k.com</a> or by calling the Retirement Benefits Line at 1-800-835-5097.

Create an asset strategy that's right for you:

Visit the Library section of NetBenefits<sup>®</sup>.

#### How do I manage my account?

Through Fidelity NetBenefits<sup>®</sup> at <a href="www.401k.com">www.401k.com</a> you may sign up to receive alerts via email when your retirement savings account strays from the investment allocation you established.

# INVESTMENT Options

Before investing in any investment option, consider the investment objectives, risks, charges, and expenses.

Contact Fidelity for a mutual fund prospectus or, if available, a summary prospectus containing this information.

Read it carefully.

What follows is an introduction to the investment options you can choose for your plan account. You can spread your investments among several options to take advantage of what each has to offer and help balance different types of risk. Reviewing this information can help you understand and compare your options. For more complete information about any of the mutual funds available through the plan, including fees and expenses, log on to Fidelity NetBenefits® at www.401k.com for prospectuses. Read them carefully before you invest.

This spectrum, with the exception of the Domestic Equity category, is based on Fidelity's analysis of the characteristics of the general investment categories and not on the actual investment options and their holdings, which may change frequently. Investment options in the Domestic Equity category are based on the options' Morningstar categories as of the most recent calendar quarter. Morningstar categories are based on a fund's style as measured by its underlying portfolio holdings over the past three years and may change at any time. These style calculations do not represent the investment options' objectives and do not predict the investment options' future styles. Investment options are listed in alphabetical order within each investment category. Risk associated with the investment options may vary significantly within each particular investment category, and the relative risk of categories may change under certain economic conditions. For a more complete discussion of risk associated with the mutual fund options, please read the prospectuses before making your investment decision. The spectrum does not represent actual or implied performance.

# ADDITIONAL INVESTMENT **Options:**

Target Date funds offer a blend of stocks, bonds, and short-term investments within a single fund. They are designed for investors who don't want to go through the process of picking several funds from the three asset classes but who still want to diversify among stocks, bonds, and short-term investments.

Categories to the left have potentially more less investment risk	e inflation risk and Cat	Categories to the right have potentially less inflation risk and more investment risk			
Fidelity Freedom® Income Fund	Fidelity Freedom® 202	25 Fund	Fidelity Freedom® 2040 Fund		
Fidelity Freedom® 2005 Fund	Fidelity Freedom® 203	30 Fund	Fidelity Freedom® 2045 Fund

Fidelity Freedom® 2015 Fund			Fidelity Freedom® 2055 Fund		
Fidelity Freedom® 2020 Fund			Fidelity Freedom® 2060 Fund		

Target date investments are generally designed for investors expecting to retire around the year indicated in each investment's name. The investments are managed to gradually become more conservative over time. The investment risks of each target date investment change over time as its asset allocation changes. They are subject to the volatility of the financial markets, including equity and fixed income investments in the U.S. and abroad and may be subject to risk associated with investing in high yield, small cap and foreign securities. Principal invested is not guaranteed at any time, including at or after their target dates.

# **NEXT STEPS**

To learn more about Maryfield, Inc. 401(k) Plan and to enroll, just follow these simple steps:

- **Step 1:** Review the features of your retirement savings plan summarized in this Enrollment guide. For additional information about your Plan after you have enrolled, visit www.401k.com or contact your employer's Plan Administrator.
- **Step 2:** Determine the contribution amount that will be deducted from your pay each payroll period.
- **Step 3:** Review your plan's investment options in this guide, to select where your contributions will be invested. You may also wish to work with your plan's financial advisor.
- **Step 4:** Complete, sign and submit the applicable forms. Follow the submission instructions on the forms provided to you in this booklet.

Enroll today, and start saving for your retirement.

# DESCRIPTIONS OF INVESTMENT **Options**

#### MONEY MARKET FUNDS

Fidelity<sup>®</sup> Government **Money Market Fund** 0458

#### Objective:

Seeks as high a level of current income as is consistent with preservation of capital and liquidity.

#### Strategy:

The Adviser normally invests at least 99.5% of the fund's total assets in cash, U.S. Government securities and/or repurchase agreements that are collateralized fully (i.e., collateralized by cash or government securities). Certain issuers of U.S. Government securities are sponsored or chartered by Congress but their securities are neither issued nor guaranteed by the U.S. Treasury. Investing in compliance with industry-standard regulatory requirements for money market funds for the quality, maturity, liquidity and diversification of investments. The Adviser stresses maintaining a stable \$1.00 share price, liquidity, and income. In addition the Adviser normally invests at least 80% of the fund's assets in U.S. Government securities and repurchase agreements for those securities.

#### Risk:

You could lose money by investing in the fund. Although the fund seeks to preserve the value of your investment at \$1.00 per share, it cannot guarantee it will do so. An investment in the fund is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency. Fidelity Investments and its affiliates, the fund's sponsor, have no legal obligation to provide financial support to the fund, and you should not expect that the sponsor will provide financial support to the fund at any time.} The fund will not impose a fee upon the sale of your shares, nor temporarily suspend your ability to sell shares if the fund's weekly liquid assets fall below 30% of its total assets because of market conditions or other factors. Interest rate increases can cause the price of a money market security to decrease. A decline in the credit quality of an issuer or a provider of credit support or a maturity-shortening structure for a security can cause the price of a money market security to decrease.

Short-term Redemption Fee: 0.00

# Who may want to invest:

- Someone who has a low tolerance for investment risk and who wishes to keep the value of his or her investment relatively stable.
- Someone who is seeking to complement his or her bond and stock fund holdings in order to reach a particular asset allocation.

#### Footnotes:

This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.

#### **Short-term Redemption Fee Notes:**

None

#### **BOND FUNDS**

#### Fidelity® Strategic Income Fund 0368

#### Objective:

Seeks a high level of current income. The fund may also seek capital appreciation.

#### Strategy:

Investing primarily in debt securities by allocating assets among four general investment categories: high yield securities, U.S. Government and investment-grade securities, emerging market securities, and foreign developed market securities. The fund uses a neutral mix of approximately 45% high yield, 25% U.S. Government and investment-grade, 15% emerging markets, and 15% foreign developed markets. Engaging in transactions that have a leveraging effect on the fund.

#### Risk:

Stock markets, especially foreign markets, are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, or economic developments. Fixed income investments entail interest rate risk (as interest rates rise bond prices usually fall), the risk of issuer default, issuer credit risk and inflation risk. Foreign securities are subject to interest rate, currency exchange rate, economic, and political risks, all of which are magnified in emerging markets. Lower-quality bonds can be more volatile and have greater risk of default than higher-quality bonds. Leverage can increase market exposure and magnify investment risk.

#### **Short-term Redemption Fee: 0.00**

#### Who may want to invest:

- Someone who is seeking potential returns primarily in the form of interest dividends rather than through an increase in share price.
- Someone looking for a fund investing in a mix of bonds that range from conservative to high risk and who can tolerate the risks associated with fixed-income investments.

#### Footnotes:

This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.

#### **Short-term Redemption Fee Notes:**

None

Fidelity® U.S. Bond Index Fund - Investor Class 0651

## Objective:

Seeks to provide investment results that correspond to the aggregate price and interest performance of the debt securities in the Bloomberg Barclays U.S. Aggregate Bond Index.

#### Strategy:

Normally investing at least 80% of the fund's assets in bonds included in the Bloomberg Barclays U.S. Aggregate Bond Index. Using statistical sampling techniques based on duration, maturity, interest rate sensitivity, security structure, and credit quality to attempt to replicate the returns of the Index using a smaller number of securities. Engaging in transactions that have a leveraging effect on the fund, including investments in derivatives - such as swaps (interest rate, total return, and credit default) and futures contracts - and forward-settling securities, to adjust the fund's risk exposure. Investing in Fidelity's central funds (specialized investment vehicles used by Fidelity funds to invest in particular security types or investment disciplines).

#### Risk:

In general the bond market is volatile, and fixed income securities carry interest rate risk. (As interest rates rise, bond prices usually fall, and vice versa. This effect is usually more pronounced for longer-term securities.) Fixed income securities also carry inflation risk and credit and default risks for both issuers and counterparties. Unlike individual bonds, most bond funds do not have a maturity date, so avoiding losses caused by price volatility by holding them until maturity is not possible. Foreign securities are subject to interest rate, currency exchange rate, economic, and political risks. The fund can invest in securities that may have a leveraging effect (such as derivatives and forward-settling securities) which may increase market exposure, magnify investment risks, and cause losses to be realized more quickly.

#### Short-term Redemption Fee: 0.00

#### Who may want to invest:

- Someone who is seeking potential returns primarily in the form of interest dividends rather than through an increase in share price.
- Someone who is seeking to diversify an equity portfolio with a more conservative investment option.

#### Footnotes:

This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.

The Bloomberg Barclays U.S. Aggregate Bond Index is an unmanaged market value-weighted index for U.S. dollar denominated investment-grade fixed-rate debt issues, including government, corporate, asset-backed, and mortgagebacked securities with maturities of at least one year.

#### **Short-term Redemption Fee Notes:**

None

# Janus Henderson Short- Objective: **OUMZ**

Term Bond Fund Class T The investment seeks as high a level of current income as is consistent with preservation of capital.

#### Strategy:

The fund invests, under normal circumstances, at least 80% of its net assets (plus any borrowings for investment purposes) in short- and intermediateterm securities such as corporate bonds or notes or government securities, including agency securities. It may invest up to 35% of its net assets in highyield/high-risk bonds, also known as "junk" bonds. The manager expects to maintain an average-weighted effective maturity of three years or less under normal circumstances.

#### Risk.

In general the bond market is volatile, and fixed income securities carry interest rate risk. (As interest rates rise, bond prices usually fall, and vice versa. This effect is usually more pronounced for longer-term securities.) Fixed income securities also carry inflation risk and credit and default risks for both issuers and counterparties. Unlike individual bonds, most bond funds do not have a maturity date, so avoiding losses caused by price volatility by holding them until maturity is not possible. Additional risk information for this product may be found in the prospectus or other product materials, if available.

Short-term Redemption Fee: 0.00

#### Who may want to invest:

- Someone who is seeking potential returns primarily in the form of interest dividends rather than through an increase in share price.
- Someone who is seeking to diversify an equity portfolio with a more conservative investment option.

#### Footnotes:

This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.

As of June 05, 2017, this fund changed its name from Janus Short Term Bond Fund Class T.

#### **Short-term Redemption Fee Notes:**

None

#### **BALANCED/HYBRID FUNDS**

### Fidelity® Balanced Fund Objective:

0304

Seeks income and capital growth consistent with reasonable risk.

#### Strategy

Investing approximately 60% of assets in stocks and other equity securities and the remainder in bonds and other debt securities, including lower-quality debt securities, when its outlook is neutral. Investing at least 25% of total assets in fixed-income senior securities (including debt securities and preferred stock.) Engaging in transactions that have a leveraging effect on the fund.

#### Risk:

Stock markets, especially foreign markets, are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, or economic developments. Fixed income investments entail interest rate risk (as interest rates rise bond prices usually fall), the risk of issuer default, issuer credit risk and inflation risk. Foreign securities are subject to interest rate, currency exchange rate, economic, and political risks. Lower-quality bonds can be more volatile and have greater risk of default than higher-quality bonds. Leverage can increase market exposure and magnify investment risk.

#### **Short-term Redemption Fee: 0.00**

#### Who may want to invest:

- Someone who is seeking to invest in a fund that invests in both stocks and bonds
- Someone who is seeking the potential both for income and for long-term share-price appreciation and who is willing to accept the volatility of the bond and stock markets.

#### Footnotes:

This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund

#### **Short-term Redemption Fee Notes:**

None

#### DOMESTIC EQUITY FUNDS

#### Artisan Mid Cap Fund Investor Class OMVM

#### Objective:

The investment seeks maximum long-term capital growth.

#### Strategy

The fund normally invests no less than 80% of its net assets plus any borrowings for investment purposes at market value at the time of purchase in the common stocks of medium-sized companies. It defines a medium-sized company as one with a market capitalization greater than the market capitalization of the smallest company in the Russell Midcap<sup>®</sup> Index and less than three times the weighted average market capitalization of companies in the index.

#### Risk:

Growth stocks can perform differently from the market as a whole and can be more volatile than other types of stocks. The securities of smaller, less well-known companies can be more volatile than those of larger companies. Stock markets are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, economic or other developments. These risks may be magnified in foreign markets. Additional risk information for this product may be found in the prospectus or other product materials, if available.

### Short-term Redemption Fee: 0.00

#### Who may want to invest:

- Someone who is seeking the potential for long-term share-price appreciation.
- Someone who is willing to accept the generally greater price volatility associated both with growth-oriented stocks and with smaller companies.

#### Footnotes:

This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.

The Russell Midcap<sup>®</sup> Index is an unmanaged market capitalization-weighted index of 800 medium-capitalization stocks. The stocks are also members of the Russell 1000<sup>®</sup> index.

#### **Short-term Redemption Fee Notes:**

None

#### Fidelity® 500 Index Fund - Investor Class 0650

#### Objective:

Seeks to provide investment results that correspond to the total return (i.e., the combination of capital changes and income) performance of common stocks publicly traded in the United States.

#### Strategy:

Normally investing at least 80% of assets in common stocks included in the S&P 500 Index, which broadly represents the performance of common stocks publicly traded in the United States.

#### Rick.

Stock markets, especially foreign markets, are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, or economic developments.

Short-term Redemption Fee: 0.00

#### Who may want to invest:

- Someone who is seeking the potential for long-term share-price appreciation and, secondarily, dividend income.
- Someone who is seeking both growth- and value-style investments and who is willing to accept the volatility associated with investing in the stock market

#### Footnotes:

This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund

The S&P 500 Index is a market capitalization-weighted index of 500 common stocks chosen for market size, liquidity, and industry group representation to represent U.S. equity performance.

#### **Short-term Redemption Fee Notes:**

None

Objective:

Seeks growth of capital over the long term.

#### Strategy:

Normally investing at least 80% of assets in blue chip companies (companies whose stock is included in the S&P 500 or the Dow Jones Industrial Average, and companies with market capitalizations of at least \$1 billion if not included in either index). Investing in companies that FMR believes have above-average growth potential (stocks of these companies are often called "growth" stocks). Normally investing primarily in common stocks of well-known and established companies.

#### Risk:

The value of equity securities fluctuates in response to issuer, political, market, and economic developments. In the short term, equity prices can fluctuate dramatically in response to these developments. Different parts of the market and different types of equity securities can react differently to these developments. For example, 'growth' stocks can react differently from 'value' stocks. Foreign securities, foreign currencies, and securities issued by U.S. entities with substantial foreign operations can involve additional risks. You may have a gain or loss when you sell your shares.

#### Short-term Redemption Fee: 0.00

#### Who may want to invest:

- Someone who is seeking the potential for long-term share-price appreciation.
- Someone who is willing to accept the generally greater price volatility associated with growth-oriented stocks.

#### Footnotes:

This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.

The S&P 500<sup>®</sup> Index is a registered service mark of The McGraw-Hill Companies, Inc., and has been licensed for use by Fidelity Distributors Corporation and its affiliates. It is an unmanaged index of the common stock prices of 500 widely held U.S. stocks that includes the reinvestment of dividends.

Fidelity® Blue Chip Growth Fund 0312

The Dow Jones Industrial Average (DJIA) is an unmanaged price-weighted index and is the most widely used indicator of how the country's industrial leaders are performing. Also known as "the Dow," this is a formula based on the stock prices of 30 major companies chosen from sectors of the economy most representative of our country's economic condition.

#### **Short-term Redemption Fee Notes:**

None

#### Fidelity® Capital **Appreciation Fund** 0307

#### Objective:

Seeks capital appreciation.

#### Strategy:

Normally investing primarily in common stocks. Investing in either "growth" stocks or "value" stocks or both.

#### Risk:

Stock markets, especially foreign markets, are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, or economic developments. Foreign securities are subject to interest rate, currency exchange rate, economic, and political risks.

#### Short-term Redemption Fee: 0.00

#### Who may want to invest:

- Someone who is seeking the potential for long-term share-price appreciation.
- Someone who is willing to accept the generally greater price volatility associated with growth-oriented stocks.

#### Footnotes:

This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.

#### **Short-term Redemption Fee Notes:**

None

#### Fidelity® Contrafund® 0022

#### Objective:

Seeks capital appreciation.

#### Strategy:

Investing in securities of companies whose value FMR believes is not fully recognized by the public. Investing in either 'growth' stocks or 'value' stocks or both. Normally investing primarily in common stocks.

#### Risk:

The value of the fund's domestic and foreign investments will vary from day to day in response to many factors. Stock values fluctuate in response to the activities of individual companies, and general market and economic conditions. Investments in foreign securities involve greater risk than U.S. investments. You may have a gain or loss when you sell your shares.

#### **Short-term Redemption Fee: 0.00**

#### Who may want to invest:

- Someone who is seeking the potential for long-term share-price appreciation.
- Someone who is willing to accept the generally greater price volatility associated with growth-oriented stocks.

#### Footnotes:

#### **Short-term Redemption Fee Notes:**

None

#### Fidelity® Small Cap Discovery Fund 0384

#### Objective:

Seeks long-term growth of capital.

#### Strategy:

Normally investing at least 80% of assets in securities of companies with small market capitalizations (companies with market capitalizations similar to the companies in the Russell 2000 Index or the S&P Small Cap 600). Investing in either "growth" stocks or "value" stocks or both. Normally investing primarily in common stocks.

#### Risk:

Stock markets, especially foreign markets, are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, or economic developments. The securities of smaller, less well-known companies can be more volatile than those of larger companies. Foreign securities are subject to interest rate, currency exchange rate, economic, and political risks.

#### **Short-term Redemption Fee: 1.50**

### Who may want to invest:

- Someone who is seeking the potential for long-term share-price appreciation and, secondarily, dividend income.
- Someone who is seeking both growth- and value-style investments and who is willing to accept the generally greater volatility of investments in smaller companies.

#### Footnotes:

This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.

The Russell 2000<sup>®</sup> Index is an unmanaged market capitalization-weighted index of 2,000 small company stocks of U.S. domiciled companies.

The S&P Small Cap 600<sup>®</sup> Index is a registered service mark of The McGraw-Hill Companies, Inc., and has been licensed for use by Fidelity Distributors Corporation and its affiliates. It is a market capitalization-weighted index of 600 small-capitalization stocks.

#### **Short-term Redemption Fee Notes:**

This fund has a Short-term Redemption Fee of 1.50% for fee eligible shares held less than 90 days.

#### Fidelity® Small Cap Stock Fund 0340

#### **Objective:**

Seeks long-term growth of capital.

#### Strategy:

Normally investing at least 80% of assets in common stocks of companies with small market capitalization (companies with market capitalization similar to companies in the Russell 2000 Index or the S&P SmallCap 600). Investing in either "growth" stocks or "value" stocks or both.

#### Risk:

Stock markets, especially foreign markets, are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, or economic developments. The securities of smaller, less well-known companies can be more volatile than those of larger companies. Foreign securities are subject to interest rate, currency exchange rate, economic, and political risks.

This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.

The Russell 2000® Index is an unmanaged market capitalization-weighted index of 2,000 small company stocks of U.S. domiciled companies.

The S&P Small Cap 600<sup>®</sup> Index is a registered service mark of The McGraw-Hill Companies, Inc., and has been licensed for use by Fidelity Distributors Corporation and its affiliates. It is a market capitalization-weighted index of 600 small-capitalization stocks.

#### Short-term Redemption Fee Notes:

This fund has a Short-term Redemption Fee of 2.00% for fee eligible shares held less than 90 days.

#### Invesco Growth and Income Fund Class A **OMZC**

#### Objective:

The investment seeks total return through growth of capital and current income.

#### Strategy:

Under normal market conditions, the fund's investment adviser seeks to achieve the fund's investment objective by investing primarily in incomeproducing equity securities, which include common stocks and convertible securities. It may invest in securities of issuers of all capitalization sizes; however, a substantial number of the issuers in which the fund invests are large-capitalization issuers. The fund may invest up to 25% of its net assets in securities of foreign issuers, which may include depositary receipts.

#### Risk:

Value stocks can perform differently than other types of stocks and can continue to be undervalued by the market for long periods of time. Stock markets are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, economic or other developments. These risks may be magnified in foreign markets. Additional risk information for this product may be found in the prospectus or other product materials, if available.

#### Short-term Redemption Fee: 0.00

#### Who may want to invest:

Someone who is seeking the potential for long-term share-price appreciation and, secondarily, dividend income.

 Someone who is comfortable with the volatility of large-cap stocks and value-style investments.

#### Footnotes:

This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.

#### **Short-term Redemption Fee Notes:**

None

John Hancock Funds Disciplined Value Mid Cap Fund Class A OEJK

#### Objective:

The investment seeks long-term growth of capital with current income as a secondary objective.

#### Strategy:

Under normal circumstances, the fund seeks to achieve its investment objectives by investing at least 80% of its net assets (including borrowings for investment purposes) in a diversified portfolio consisting primarily of equity securities, such as common stocks, of issuers with medium market capitalizations, and identified by the manager as having value characteristics. It may also invest up to 20% of its total assets in foreign currency-denominated securities.

#### Risk

Value and growth stocks can perform differently from other types of stocks. Growth stocks can be more volatile. Value stocks can continue to be undervalued by the market for long periods of time. The securities of smaller, less well-known companies can be more volatile than those of larger companies. Stock markets are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, economic or other developments. These risks may be magnified in foreign markets. Additional risk information for this product may be found in the prospectus or other product materials, if available.

#### Short-term Redemption Fee: 0.00

#### Who may want to invest:

- Someone who is seeking the potential for long-term share-price appreciation and, secondarily, dividend income.
- Someone who is seeking both growth- and value-style investments and who is willing to accept the generally greater volatility of investments in smaller companies.

#### Footnotes:

This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.

#### INTERNATIONAL/GLOBAL FUNDS

Fidelity® Diversified International Fund 0325

#### Objective:

Seeks capital growth.

### Strategy:

Normally investing primarily in non-U.S. securities. Normally investing primarily in common stocks.

#### Risk:

Stock markets, especially foreign markets, are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, or economic developments. Foreign securities are subject to interest rate, currency exchange rate, economic, and political risks, all of which are magnified in emerging markets.

### Short-term Redemption Fee: 0.00

#### Who may want to invest:

- Someone who is seeking to complement a portfolio of domestic investments with international investments, which can behave differently.
- Someone who is willing to accept the higher degree of risk associated with investing overseas.

#### Footnotes:

This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.

#### **Short-term Redemption Fee Notes:**

#### None

The investment seeks long-term capital appreciation.

#### Strategy:

Objective:

Wells Fargo Emerging Markets Equity Fund -Class Admin OUHH

> The fund normally invests at least 80% of its net assets in emerging market equity securities. It invests principally in equity or other listed securities of emerging market companies. The fund's managers consider emerging market companies to include companies that are traded in, have their primary operations in, are domiciled in or derive a majority of their revenue from emerging market countries as defined by the MSCI Emerging Markets Index. It may have exposure to stocks across any capitalizations and styles and will be diversified across countries and sectors.

#### Risk:

Foreign securities are subject to interest-rate, currency-exchange-rate, economic, and political risks, all of which may be magnified in emerging markets. Stock markets are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, economic or other developments. Additional risk information for this product may be found in the prospectus or other product materials, if available.

#### **Short-term Redemption Fee: 0.00**

#### Who may want to invest:

- Someone who is willing to accept the higher degree of risk associated with investing in emerging markets.
- Someone who is seeking to complement a portfolio of domestic investments and/or international investments in developed countries with investments in developing countries, which can behave differently.

#### Footnotes:

This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.

The MSCI Emerging Markets Index is an unmanaged market capitalization weighted index of equity securities of companies in various countries. This index is designed to represent the performance of emerging stock markets throughout the world excluding certain market segments unavailable to U.S. based investors.

#### TARGET DATE FUNDS

## Fidelity Freedom® 2005 Objective:

Fund 1312

Seeks high total return until its target retirement date. Thereafter, the fund's objective will be to seek high current income and, as a secondary objective, capital appreciation.

#### Strategy:

Designed for investors who anticipate retiring in or within a few years of the fund's target retirement year at or around age 65 and plan to gradually withdraw the value of their account in the fund over time. Investing in a combination of Fidelity domestic equity funds, international equity funds (developed and emerging markets), bond funds, and short-term funds (underlying Fidelity funds). Allocating assets among underlying Fidelity funds according to a "neutral" asset allocation strategy that becomes increasingly conservative until it reaches an allocation similar to that of the Freedom Income Fund - approximately 17% in domestic equity funds, 7% in international equity funds, 46% in bond funds, and 30% in short-term funds (approximately 10 to 19 years after the target year). Ultimately, the fund will merge with the Freedom Income Fund. Through an active asset allocation strategy, the Adviser may increase or decrease neutral asset class exposures by up to 10 percentage points for equity (includes domestic and international equity funds), bond and short-term funds to reflect the Adviser's market outlook, which is primarily focused on the intermediate term. The Adviser may also make active asset allocations within other asset classes (including commodities, high yield debt, floating rate debt, real estate debt, inflationprotected debt, and emerging markets debt) from 0% to 10% individually but no more than 25% in aggregate within those other asset classes. The Adviser may continue to seek high total return for several years beyond the fund's target retirement date in an effort to achieve the fund's overall investment objective.

#### Risk:

The investment risk of each Fidelity Freedom Fund changes over time as its asset allocation changes. These risks are subject to the asset allocation decisions of the Investment Adviser. Pursuant to the Adviser's ability to use an active asset allocation strategy, investors may be subject to a different risk profile compared to the fund's neutral asset allocation strategy shown in its glide path. The funds are subject to the volatility of the financial markets, including that of equity and fixed income investments in the U.S. and abroad,

and may be subject to risks associated with investing in high-yield, small-cap, commodity-linked, and foreign securities. No target date fund is considered a complete retirement program and there is no guarantee any single fund will provide sufficient retirement income at or through retirement. Principal invested is not guaranteed at any time, including at or after the funds' target dates.

### Short-term Redemption Fee: 0.00

#### Who may want to invest:

- Someone who is seeking an investment option intended for people in or very near retirement and who is willing to accept the volatility of diversified investments in the market.
- Someone who is seeking a diversified mix of stocks, bonds, and shortterm investments in one investment option or who does not feel comfortable making asset allocation choices over time.

This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.

# Fidelity Freedom® 2050

Fund 1618

#### Objective:

Seeks high total return until its target retirement date. Thereafter, the fund's objective will be to seek high current income and, as a secondary objective, capital appreciation.

#### Strategy:

Designed for investors who anticipate retiring in or within a few years of the fund's target retirement year at or around age 65 and plan to gradually withdraw the value of their account in the fund over time. Investing in a combination of Fidelity domestic equity funds, international equity funds (developed and emerging markets), bond funds, and short-term funds (underlying Fidelity funds). Allocating assets among underlying Fidelity funds according to a "neutral" asset allocation strategy that becomes increasingly conservative until it reaches an allocation similar to that of the Freedom

Income Fund - approximately 17% in domestic equity funds, 7% in international equity funds, 46% in bond funds, and 30% in short-term funds (approximately 10 to 19 years after the target year). Ultimately, the fund will merge with the Freedom Income Fund. Through an active asset allocation strategy, the Adviser may increase or decrease neutral asset class exposures by up to 10 percentage points for equity (includes domestic and international equity funds), bond and short-term funds to reflect the Adviser's market outlook, which is primarily focused on the intermediate term. The Adviser may also make active asset allocations within other asset classes (including commodities, high yield debt, floating rate debt, real estate debt, inflationprotected debt, and emerging markets debt) from 0% to 10% individually but no more than 25% in aggregate within those other asset classes. The Adviser may continue to seek high total return for several years beyond the fund's target retirement date in an effort to achieve the fund's overall investment objective.

#### Risk:

The investment risk of each Fidelity Freedom Fund changes over time as its asset allocation changes. These risks are subject to the asset allocation decisions of the Investment Adviser. Pursuant to the Adviser's ability to use an active asset allocation strategy, investors may be subject to a different risk profile compared to the fund's neutral asset allocation strategy shown in its glide path. The funds are subject to the volatility of the financial markets, including that of equity and fixed income investments in the U.S. and abroad, and may be subject to risks associated with investing in high-yield, small-cap, commodity-linked, and foreign securities. No target date fund is considered a complete retirement program and there is no guarantee any single fund will provide sufficient retirement income at or through retirement. Principal invested is not guaranteed at any time, including at or after the funds' target dates.

# **Short-term Redemption Fee: 0.00**

#### Who may want to invest:

- Someone who is seeking an investment option that gradually becomes more conservative over time and who is willing to accept the volatility of the markets.
- Someone who is seeking a diversified mix of stocks, bonds, and shortterm investments in one investment option or who does not feel comfortable making asset allocation choices over time.

#### **Short-term Redemption Fee Notes:**

None

#### Fidelity Freedom® Income Fund 0369

#### Objective:

Seeks high total current income and, as a secondary objective, capital appreciation.

#### Strategy:

Investing in a combination of Fidelity domestic equity funds, international equity funds (developed and emerging markets), bond funds, and short-term funds (underlying Fidelity funds). Allocating assets among underlying Fidelity funds according to a stable "neutral" asset allocation strategy of approximately 17% in domestic equity funds, 7% in international equity funds, 46% in bond funds, and 30% in short-term funds. Through an active asset allocation strategy, the Adviser may increase or decrease neutral asset class exposures by up to 10 percentage points for equity (includes domestic and international equity funds), bond and short-term funds to reflect the Adviser's market outlook, which is primarily focused on the intermediate term. The Adviser may also make active asset allocations within other asset classes (including commodities, high yield debt, floating rate debt, real estate debt, inflation-protected debt, and emerging markets debt) from 0% to 10% individually but no more than 25% in aggregate within those other asset classes.

#### Risk:

The fund is subject to risks resulting from the asset allocation decisions of the Investment Adviser. Pursuant to the Adviser's ability to use an active asset allocation strategy, investors may be subject to a different risk profile compared to the fund's neutral asset allocation strategy shown in its glide path. The fund is subject to the volatility of the financial markets, including that of equity and fixed income investments. Fixed income investments entail issuer default and credit risk, inflation risk, and interest rate risk (as interest rates rise, bond prices usually fall and vice versa). This effect is usually more pronounced for longer-term securities. No target date fund is considered a complete retirement program and there is no guarantee any single fund will provide sufficient retirement income at or through retirement. Principal invested is not guaranteed at any time, including at or after the funds' target dates.

# **Short-term Redemption Fee:** 0.00

#### Who may want to invest:

- Someone who is seeking an investment option intended for people in retirement and who is willing to accept the volatility of diversified investments in the market.
- Someone who is seeking a diversified mix of stocks, bonds, and shortterm investments in one investment option and looking primarily for the potential for income and, secondarily, for share-price appreciation.

#### Footnotes:

This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.

#### INSTRUCTIONS FOR DESIGNATING OR CHANGING BENEFICIARY

### **General Instruction**

These instructions will assist you, in properly completing the Primary and Contingent Beneficiary Section(s) of the Designation of Beneficiary Form.

- (1) To designate one person, insert the name and relationship in the spaces provided. If your Beneficiary is not related to you, show relationship as "Friend."
- (2) If you wish to name your estate, insert "Estate" in the blank space.
- (3) If you wish to designate a trust, insert the name of the trustee and trust in the blank space using language similar to the following example:
  - To X Bank as Trustee, or its successor Trustee, of the John E. Jones Trust dated the 26th day of June, 2017, including any amendments to the Trust.
- (4) If you wish to designate more than one Beneficiary here are the most common examples:

• Three or more beneficiaries: James O. Jones, brother

Paul A. Jones, brother Jane A. Smith, sister

• Unborn children: My children living at my death

**Note**: Unless you provide otherwise in completing the Designation of Beneficiary Form, the Trustee will pay all sums payable to more than one Beneficiary equally to the living Beneficiaries.

- (5) You may not designate your will as a beneficiary.
- (6) Contingent Beneficiaries will only receive benefits if all designated primary Beneficiaries die before you.

## Spousal Consent

If you are married and your spouse is not designated as your primary Beneficiary, then your Beneficiary designation is invalid without the consent of your spouse unless, under a prior Beneficiary designation, your spouse waived the right to consent to any change in the Beneficiary designation. Your spouse's consent in this situation must be witnessed by a Plan Representative or a Notary Public.

Plan Number: 24939

Plan Name: Maryfield, Inc. 401(k) Plan

### **Incoming Rollover Instructions**

"Rolling over" money into the Plan is a three-step process. Please follow these instructions to ensure that this process is completed in a timely and accurate manner. *Please Note:* Failure to follow these instructions may result in a delay in the processing of your request and may jeopardize your ability to roll over your distribution.

### Step 1. Request your distribution

Request a direct rollover distribution from your previous eligible retirement plan. See the Incoming Rollover Contribution Application for a list of the types of plans or accounts from which rollovers may be made to your employer's plan. Please keep in mind that you can only rollover your Roth 401(k) or After-tax contributions into the plan if your plan allows for these types of rollovers. Check with your Benefits Department to see if these types of rollovers are allowed. There are two distribution check payable options:

#### Option 1.

The check can be made payable to Fidelity Investments Institutional Operations Company, Inc. (or FIIOC), for the benefit of (YOUR NAME). The check must be from the distributing trustee or custodian. (Personal checks are not acceptable.) **Note**: This type of distribution avoids automatic income tax withholding. Also, it avoids the possible 10% early withdrawal penalty if you are under the age of 59 1/2.

### Option 2.

If the distribution was originally made payable directly to you, you must send your rollover contribution to Fidelity via a certified check or money order only for the amount you are rolling over payable to FIIOC. (Personal checks are not acceptable.) **Note:** If your distribution is initially received as a check made payable to you, your rollover must be completed within 60 days of receipt of the distribution. Your previous administrator will be required to withhold income taxes. As a result, you will not be able to roll over 100% of your eligible distribution unless you have extra savings available to make up the amount withheld. You must also roll over that amount within 60 days of receipt of your distribution. If you do not make up the amount withheld, that amount will be considered a withdrawal from the previous program and the taxable portion will be subject to ordinary income taxes and possibly a 10% early withdrawal penalty.

Fidelity does not accept wire transfers of funds. You must request a CHECK from your previous plan or IRA. The check should be mailed directly to you. Once you have received the check, please follow the directions in Step 2.

#### Step 2. Initiate your rollover request

Please log on to <a href="https://www.401k.com">www.401k.com</a> to initiate your request or complete the Incoming Rollover Contribution Application. Please be sure to complete all items, and sign the form if indicated.

Please Note: This rollover contribution will be invested based on the investment elections you have on file for rollover contributions to the Plan. If you have not previously made investment elections for your rollover contribution please log on to NetBenefits® at <a href="www.401k.com">www.401k.com</a> to do so. Otherwise, it will be invested based on your elections for elective deferral contributions. If you have not made investment elections for either rollover or deferral contributions, this amount will be invested in the Plan-designated default investment option. If you wish to make investment elections for your rollover contribution, please do so by contacting Fidelity Investments prior to submitting this form.

If you are not sure of the plan type that you are rolling out of, please contact your previous Plan Sponsor or IRA custodian for verification. Some plan types are not eligible for rollover.

You should make a copy of the check and the Incoming Rollover Contribution Application for your records.

### Step 3. Forward your check and rollover application to your Plan Administrator

Your Plan Administrator must approve your rollover contribution by signing the Incoming Rollover Contribution Application. Once the Plan Administrator has approved the rollover contribution, the completed Incoming Rollover Contribution Application and the check should be mailed to:

#### FIRST CLASS MAIL WITH STAMP:

Fidelity Investments Client Service Operations P.O. Box 770003 Cincinnati, OH 45277-0065

#### **Overnight Address:**

Fidelity Investments
Client Service Operations (KC1F-L)
100 Crosby Parkway Covington, KY 41015

Please include all the information requested. Incomplete forms and the accompanying check will be returned to you and may jeopardize your ability to roll over your distribution.

Once your contribution is accepted into the Plan, you can log on to Fidelity NetBenefits® at <a href="www.401k.com">www.401k.com</a> to view your rollover contribution and investment election(s). Please allow at least seven business days for processing. If you have any questions about rollover contributions, call 1-800-835-5097 or contact your Plan Administrator. Please be sure you have beneficiary information for the Plan on file.

	After-tax Contributions excluding earnings

#### Unacceptable rollover sources

The Plan cannot accept money from the following sources: rollovers from nonspousal beneficiary accounts, payments over a life expectancy or a period of 10 or more years, or mandatory age 70½ distributions. Also unacceptable are Roth IRAs, HSAs and Coverdell Education Savings Accounts (CESAs). In-kind distributions of employer stock are not acceptable; therefore, stock must be sold and the proceeds (including any appreciation realized through the date of distribution) may be rolled over.

#### Section Three: Investment Elections

I direct Fidelity to invest my rollover contribution into my current investment mix applicable to rollover contributions. If I have not previously made investment elections for the rollover contribution it will be invested based on my elections for elective deferral contributions. If I have not selected an investment mix on my own via NetBenefits® or by telephone, I understand that this rollover contribution will be invested in the Plan's default investment option as directed by my employer.

### Section Four: Participant Certification

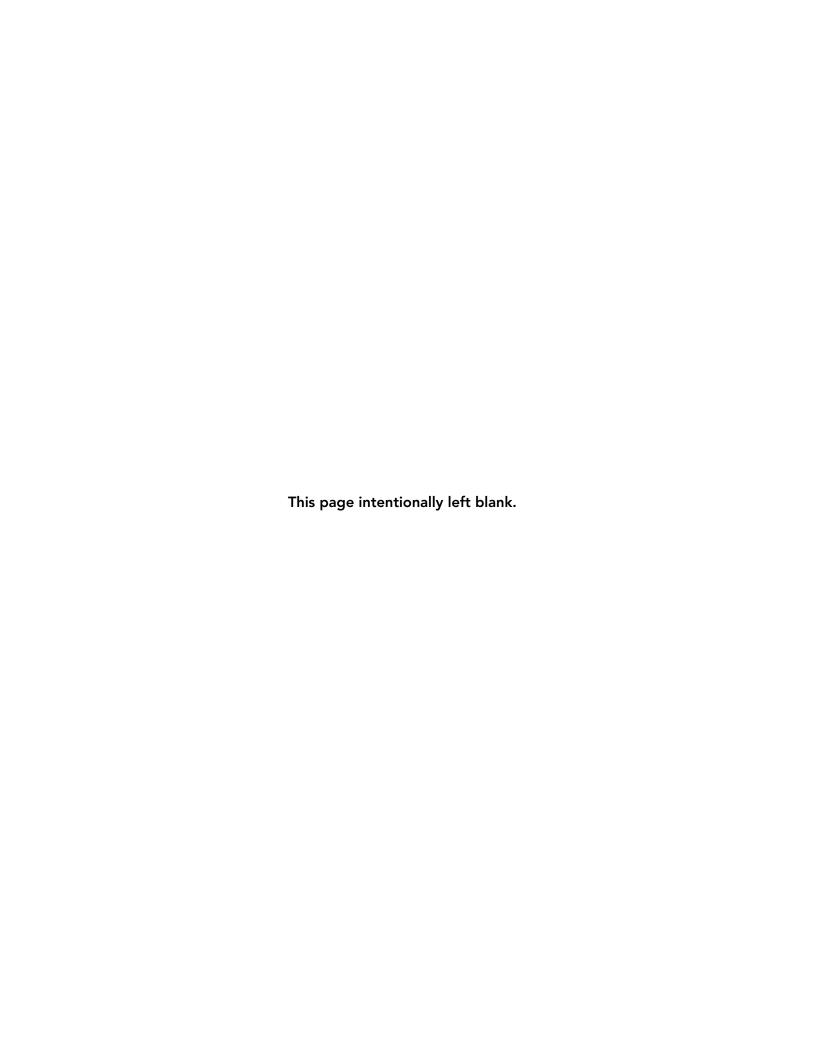

I authorize the investment election for this rollover and acknowledge that I have received information detailing my available investment options. I acknowledge that my rollover contribution will be invested in accordance with SectionThree of this form.

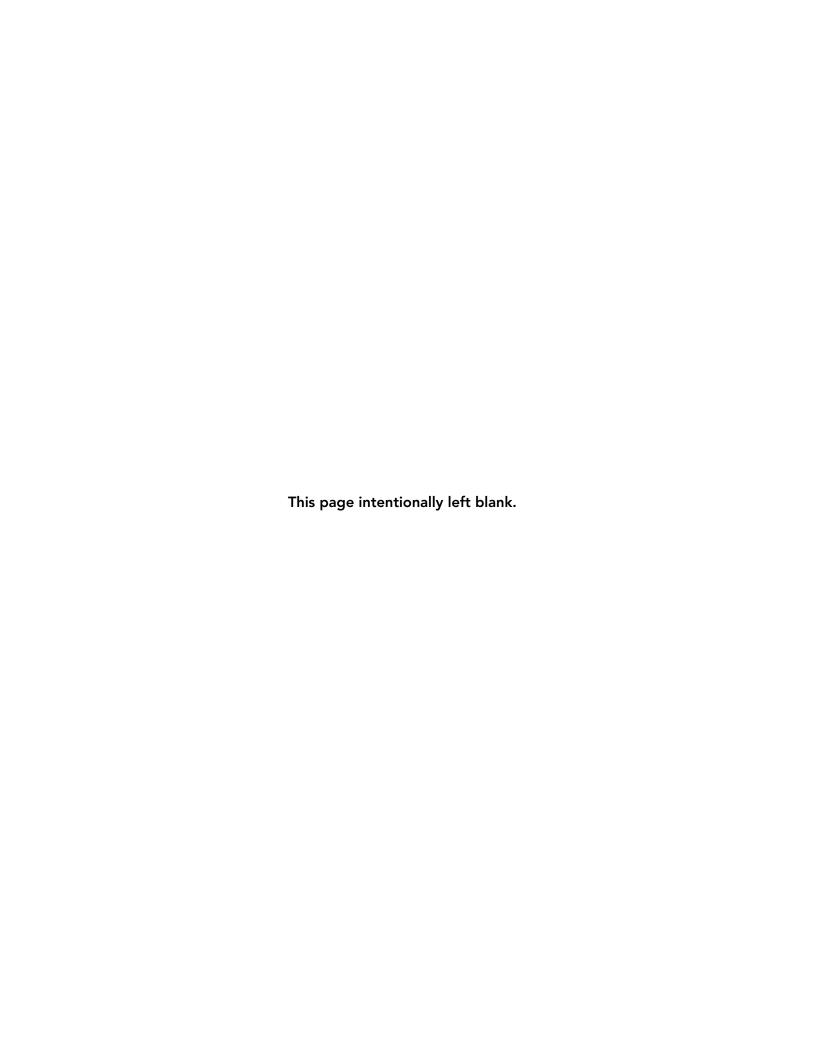

I certify that this rollover amount is composed ONLY of money from acceptable sources listed under SectionTwo, and I have completed the information regarding the source of this money to the best of my knowledge. Also, if the distribution check was made payable to me, I understand that this rollover must be received and deposited to my account within 60 days of receipt of the distribution. I understand that, once invested, these monies will be subject to the terms that govern the Plan.
